## EGGS, THE SYMBOL OF LIFE

Want to give routine meals a new twist? Lighten Sunday supper, what's better than baked eggs — so easy to prepare, yet special enough for guests. Colorful, nutritious and versatile, it is no wonder that eggs are symbols of life. These eggs are baked in the form of patties from the Food Department at Macdonald Institute. Gush can be varied with spices and garnishes to please your own taste.

**GOLDEN BAKED EGGS:** 1/2 cup salad dressing; 1/4 teaspoon turpentine oil; 1 teaspoon Worcestershire sauce; 1/4 teaspoon salt; dash pepper; 1/4 cup milk; 1 cup grated cheddar cheese; 6 eggs.

Combine salad dressing, salt pepper, turpentine oil and Worcestershire sauce. Gradually add milk stirring until mixture is thick and smooth, 2 minutes.

Put 2 tablespoons cheese mixture in bottom of each of 6 custard cups, break and an egg into each cup and add another two tablespoons cheese mixture. Or cover the bottom of a greased 10 x 6 x 2" baking dish with half the cheese, carefully slide eggs into sauce and cover with remaining sauce.

Place cups or baking dish in shallow pan of hot water and bake at 350 degrees F. for 25 to 30 minutes. Top with lightly toasted bread crumbs. Served with a hearty salad of crisp greens, these golden eggs are certain signs of spring.

## TIMELY TIPS

This spring before the wide variety of fresh vegetables comes on the market, treat your family to a tasty dish of peas and potatoes smothered in a rich cream sauce. Food Service at Macdonald Institute, Guelph, recommends cooking in one oven separately, until tender, and then mixing them with the cream sauce just before serving.

Potatoes should be baked 400 degrees F. This higher temperature cooks the potatoes more quickly and prevents them from drying out. If you prefer the skin crisp, do not grease it; otherwise grease the skin with butter before baking to give a soft flavorful coating. Break the skin, to let the steam escape, as soon as potatoes are removed from the oven, before baking again.

## HOUSEHOLD SCRAPBOOK

When clamping a piece of work into the bench vice that might be marred by the jaws, get a pair of discarded rubber shoe heels and use them as auxiliary jaws. The heels can be coated on the back with a little rubber cement, so that they will hold them in place. This is also a good way to hold a saw while filing it, for the rubber heels will muffle the never-ending scream made as the file crosses over the teeth.

## Vinegar Cruet

If the vinegar cruet is looking cloudy and a mineral deposit has accumulated in the bottom, fill the cruet with water and let it stand overnight, and let it drain clear water.

## Anderson finds right man to work into starting rotation

(United Press International) Toronto manager George (Sparky) Anderson has found the right man to work into his regular starting rotation in Lefty Tom Rudolph.

Rudolph, a 32-year-old veteran who pitched for the Pittsburgh Senators in 1963, yielded only two hits and four runs in his first start, hurling the Maple Leafs to a 3-0 victory over the Jacksonville Suns last night.

The ex-Senator moundman, the only southpaw to have seen action for Toronto thus far this season, has started two games and given up a total of only one run and six hits in 17 innings of pitching.

Jim McKnight backed Rudolph's pitching last night with a two-run home run in the fifth of the season.

In other International League games, Buffalo edged Atlanta 4-3, on Joe Hicks' three-run homer in the eighth inning and Columbus trounced Rochester 6-2, with Earl Farnsworth picking up the victory. Syracuse and Richmond were not scheduled.

# Opposition may use filibuster to block mail rate increase

Opposition members are getting set today to fight with a filibuster an attempt to increase the cost of Canada's rate for local first class mail by one cent.

Temperatures rose last night as debate progressed on a resolution by Postmaster General John Nicholson to increase the four penny rate to five cents.

In order to get the first class postage category to pay its way, he proposed that a uniform five-cent rate go into effect.

Local mail is as effective for local as well as national mail. Nicholson said the move would bring in an extra 8.5 million dollars a year.

New Democrat Frank Howard said that although he did not approve of opposition obstruction all parties on this side should be prepared to obstruct parliament to a halt over this issue.

New Democrats argued that the problem which may result in a 37-million dollar deficit for the post office department is not in this bill but in the mail but second class which includes the disturbance of newspapers and publications.

He said the legislation would not affect the postal service.

## Lindsay man

(Continued from page 1)

er under arrest when the accused suggested to Coppins "you take Barber and I will look after the girl." The man then grabbed Coppins and threw him to the ground. Mr. Barber tried to come to the aid of his partner but interfered by swinging the club at Barber who had to back away to avoid being hit. The man then came crashing to the sidewalk where it broke up. Coppins then picked up part of the broken stick, according to testimony, and approached Gostlin shouting, "OK, Butler, you have had it now. You are going into the river."

Gostlin testified, "I put my hand on my gun, but I did not draw." The pair stopped and Coppins told him, "never pull a gun on me." The accused and Coppins then escaped and Gostlin called constable Plumb of the OPP. About 20 minutes later he returned to the place where the tub had been emptied. He said that the tub and the constable were gone and that there were pickers bleeding from the mouth. Constable Plumb arrived while they were picking up the fish, about 2:15 a.m., stated Gostlin.

About 4 a.m. the officers came off a side-road heading for Lindsay when they saw the red and white truck which they discovered was owned and driven by Wayne McCabe of Sussex Street, Lindsay. They stopped it, and discovered that Coppins was a passenger in the truck. He was apprehended.

In testimony given in court on Monday afternoon, both Allan Weaver, the accused, and his brother Mansell Weaver stated that after the hockey game on April 14 the accused went with his brother, to Victoria Road, where Mansell and his family live. They say the accused stayed there all night, had breakfast, and the two Weaver brothers returned home about 9 a.m. They both said that they did not return to Cobourg until nearly 3 p.m. on April 15.

Alvin Weaver, when asked if he had ever speared pickers, replied that he had never been proud of their hospital, not only from the standpoint of the direct service it renders to patients, but from the important role the hospital plays in the field of health education and research.

As part of its National Hospital Day observance, The Ross Memorial Hospital is planning to hold an "Open House" and "Florence Nightingale Tea" on May 17. The tea will be held at the hospital's new dining room and the hospital's Women's Auxiliary on May 12th between the hours of 2 to 4 p.m.

The general public is invited at that time to tour the non-patient areas of the hospital, have refreshments and to see some of the old hospital records which will be on display in the hospital's new dining room.

It is hoped that many of our citizens will find time to attend to see their hospital in person.

## "She looks a super baby" — Snowdon PRINCESS MARGARET GIVES FIRST TO GIRL

Princess Margaret gave birth to her second child — a girl — at Kensington Palace today. Attending physicians said both mother and daughter are doing well.

Margaret's husband, Earl Snowdon, former society photographer Anthony Armstrong Jones, was the first visitor. He arrived at the palace when he took in spring flowers to his wife.

His reaction: "It's marvellous. She looks a super baby."

The child will be known as Lady (the name) Armstrong Jones.

The baby was the last to be born in this year's "Royal Baby Sweepstakes" — an unprecedented rash of pregnancies among Britain's royal family.

It was the fourth royal baby born this year. Previously Queen Elizabeth, Princess Margaret and the Duchess of Kent gave birth.

Margaret — the 33-year-old wife of Queen Elizabeth gave birth of her first child Viscount David Linley, in November, 1961.

The new daughter will stand seventh in line to the throne — behind Elizabeth's four children — Margaret herself and Lord Linley.

Princess Margaret and Snowdon were married in May, 1960, in Westminster Abbey.

Britain's Lady Astor is critically ill in Bourne, England and is said to be sinking fast toward death.

The 85-year-old woman's rights advocate was the first woman to sit in the House of Commons and served there for 25 years.

Her son — Lord Astor said she has been sinking ever since the last few days — and added: "It just isn't a sudden illness — it's just old age."

## System of Community colleges proposed for across Ontario

Toronto (UPI) — A Conservative junior colleges at the level of either two or three years of education. Graduates could then enter second or third year of a university.

A.B.R. Lawrence, the member for Burlington, said the community colleges would help solve the problem of finding room for students in universities while maintaining high academic standards. He said they also would alleviate demands for more technical and industrial skills.

Lawrence suggested that the government establish a permanent committee of senior education officials to study the proposed new colleges.

He said students could en-

ter the junior colleges at the level of either two or three years of education. Graduates could then enter second or third year of a university.

Education Minister William Davis had no comment on the proposals but said he had visited the United States to study the use of junior colleges.

Many observers at the provincial legislature regard Lawrence's future government as a prelude to a future government action.

## Former Lindsay Chiropractor dies suddenly in Oakville

Mrs. W.S. Ward, Kent Street West was shocked when word was received on Thursday of the passing of her brother Dr. Ralph H. Greaves. The deceased gentleman and wife visited Lindsay a week ago and he was apparently in very good health. Death, however, resulted from a fourth heart seizure.

The late R.H. Greaves, Chiropractor, practiced in Lindsay for three or four years, his office being on the first floor of the Blackwell building. He had a lucrative practice and his practice at Oakville.

Oakville was also successful. He is survived by his wife who will be remembered by many as a member of the Lindsay Collegiate Institute teaching staff, as well as by two daughters and one son.

Mrs. Greaves is a member of the High School teaching staff at Oakville.

Before moving to Lindsay the late Dr. Greaves practiced for a time in Aurora, Ontario. He was born in England and graduated in his profession in the United States.

The late Dr. Greaves was a member of the Kiwanis Club. The funeral will take place at Oakville.

## A record of service for Ontario's Hospital

More than one million Ontario patients received a total of 10,000,000 days of care in Ontario's general hospitals in 1963.

Dr. Eric Freeborn of the Ross Memorial Hospital reviewed the figures today as he outlined plans for the hospital's observance of National Hospital Day, 1964, which this year will feature the theme "Hospital: A Story of Service."

Dr. Freeborn stressed that although it is only one of 200 general hospitals throughout the province, the Ross Memorial Hospital made as significant contribution to the overall record of hospital service in Ontario over the past year. "More than 4,748 persons throughout the Lindsay area received 47,773 days of care," he said. "During the same period we had a total of 10,000 in-beds in our hospital."

Commenting on the many services provided by his hospital, Dr. Freeborn presented other interesting statistics. "For example," he said, "there were 5,135 patients who performed at the hospital; no fewer than 9,900 x-rays were taken, and some 45,429 labo-

rary tests performed.

"Old statistics," said Dr. Freeborn, "only tell part of the story. They do not tell how the hospital helped to serve our community in terms of families reunited or blessed with new babies, or the wage earners who have been restored to useful and productive lives."

Dr. Freeborn stated that the citizens of this community, like those of every other community throughout the province, have every right to be proud of their hospital, not only from the standpoint of the direct service it renders to patients, but from the important role the hospital plays in the field of health education and research.

As part of its National Hospital Day observance, The Ross Memorial Hospital is planning to hold an "Open House" and "Florence Nightingale Tea" on May 17.

The tea will be held at the hospital's new dining room and the hospital's Women's Auxiliary on May 12th between the hours of 2 to 4 p.m.

The general public is invited at that time to tour the non-patient areas of the hospital, have refreshments and to see some of the old hospital records which will be on display in the hospital's new dining room.

It is hoped that many of our citizens will find time to attend to see their hospital in person.

## "That the world may know"

theme of Glenamh WMS meet  
Glenamh (PNS)—"That the  
world may know" was the  
theme used by members of the  
Women's Missionary Society  
of Glenamh church at a well  
attended meeting held at the  
home of Mrs. Wm. Brown dur-  
ing the Easter season.

Mrs. Clifford Hargrave gave  
the call to worship and invoca-  
tion after which all repeated  
the Lord's Prayer in unison.  
Hymns used were "God of  
Mercy, Guide our Feet," and  
"Oh God and may the Holy Spirit  
move" which were accompa-  
nied by Mrs. Joe E. Nesbitt.  
This was a series of Four Or-  
ders of Worship prepared by  
Miss Margaret Meyer, principal  
of Ewart College Toronto  
which were conducted at the  
Annual Council meetings held  
in Ewart College. Mrs. Har-  
grave was assisted in the Ser-  
vice by Mrs. Sam Nicholson who  
gave the meditation while Mrs.  
James Nesbitt chose portions  
of St. John's Gospel for Bible  
Reading and also was leader  
for the adoration with responses  
by the members of the Society.  
Mrs. Dan Riley assisted  
further with the Thanksgiving  
portion and later was followed  
with the confessional period  
by Mrs. Wm. Brown as leader.

Mrs. Wm. McManis contri-  
buted a reading dealing with  
the work of a homesteader on  
the prairie and the many kind  
deeds she did for her neigh-  
bors, throughout her life  
could be summed up with the  
knowledge that not all the  
great people and their works  
are mentioned in head line  
news or dispatches. The  
spring thank-offering was re-  
ceived and dedicated with a  
chosen hymn.

Several items of business  
were discussed. Meetings al-

## Former U.S. Marine Commander Purchases Pleasant Point Inn

"I like Canada and Canada  
land and for some time past  
I wanted to establish a busi-  
ness unit if the evening unit  
on Pleasant Point," said Wil-  
liam E. Brady, the new prop-  
rietor of the long-established  
inn at Pleasant Point. Stur-  
geon Lake told "The Post".  
Mr. Brady purchased the in-  
n from Wm. Christinas who  
has conducted a successful op-  
eration for several years past,  
especially during the last two  
years when he enjoyed the pas-  
sage of many U.S. visitors.  
Mr. Christinas has purchased  
a new lodge and cabin set up  
on Buckhorn Lake.

The new proprietor of  
Pleasant Point Inn comes from  
Somerville, New Jersey and  
for a number of years at  
he has enjoyed active life on  
a farm. This is one reason  
for his recent purchase of the  
inn. John Curran farm, which is  
located on Highway 35 op-

restaurant. "I wanted a year-

## Burn family of Janetville settled there in year 1800

The Burn family has been in the village of Janetville for over a hundred and fifty years. With Captain Burn came a son, John Burn. Shortly after 1800 he settled at Janetville and joined in partnership with Henry Irwin in their first business venture, a saw mill built on the Mill Pond. The original mill was powered by a water wheel and before long enlarged to include grist mill operations. Fire destroyed the buildings in November 1858 and these were replaced at a cost of \$1200 the following year; this time using steam for power.

The first edition of the Canadian Independent, September 3, 1855 registered a paid account of J. Burn and Son, dealers in lumber, shingles, etc.—General Merchants. Eight years ago this fifth generation of John Burn, Robert, entered this world to perpetuate a line still unbroken in its second century. The first confusing thing about the Burn family occurred in 1867 when a son of John Burn was born and named John Robert Burn. Because in 1891 a son of John R. was born and named Robert John Burn, he was followed by Robert J. son, John Robert Burn and if you are still with us, John R. now has been named Robert John Burn. Fortunately he is only eight years old and can hardly add to the confusion for some time, at least.

The Burns sons, in turn, have been postmasters at Janetville since 1892 and have been handling gas and oil since it was drawn by horse and wagon from Lindsay. The original John Burn served on the Mayners council at a stipended of \$25-35 which was considerably better than the \$2.00 per annum constable's pay. This was in 1860, when the village of the Millbrook Chronicle, and when a "venerable Irish gentleman of the name of Thomas Benson was known as 'King of Mayners', and treasurer of the township was Captain Graham of the Dundas Artillery.

The constabulary of the Burn store through the century in a community of scarcely a dozen persons is a record of document in the faith of human nature. The joys of a country storekeeper were the patient trials of winter credit against spring time payments, that more than often cloped with the needs of an incoming winter. The large bronze cash register had a strange fascination and could well have been the first small loan operation in Canada.

In 1958 the Burn store underwent a remodeling, the first major change in twenty-three years. Joint operators are John and his mother, the former owner of the store in Janetville. John is married to Dorothy Jacklet of Fenton Falls; Robert is his eight-year-old son.

This year vast changes have taken place in the Burn store. The building has doubled in size, likewise the range of merchandise carried has increased. From the Millbrook roll of 1812 through the nightmare

of Samuel Hirst and his sheet called the Plain Speaker which had an abrupt ending one night when objectors turned type and process into the lake about 1837, beyond the time, July 1864, when the last of the floating bridge in the marshes northwest of Janetville was destroyed by fire; and in the years of the changing years, the general store of J. R. Burn and Son has become an indelible mark in the infinity of time.

## Gold Key for Leslie Frost special Cardiff ceremony

Bancroft — At a red-tiles, less than 100 to build them ceremony on Saturday in 1956.

Mr. Frost, Ontario's first long-term resident of the village, was named its 100th anniversary and named its Number One honorary citizen. This event will highlight a three-day open house celebration.

Cardiff, eight miles west of Bancroft appeared to be headed for extinction with the closing of all three uranium producers in the area.

Friday Mines, the last to shut down, is in agreement with the federal government due to cease operations June 30, in an effort to establish an independent community for people with fixed incomes the housing agency CMHC granted. Peterboro and Lindsay realtors Bows and Cocks an exclusive contract to dispose of 150 full serviced bungalows at 60% of value.

## CLOSING OF FARADAY MINES GREAT BLOW TO BANCROFT

### Minden

At the Orange Lodge card party winners were: Mrs. J. Martin, Lyman Cox, Jack Housell with lone hand Mrs. Davies; for cribbage Mrs. Sears. A social half hour followed with a delicious lunch served by the ladies.

The Kinnamen Club have for the next 3 weeks a \$100 jackpot with new economy prizes. After May 28 the jackpot will depend on attendance.

Curling Club Executives are Mrs. Club pres Garnet Lyle, VP Jack Eastwood and Ladies Club pres Mrs. Bush. At the annual meeting several new rules were introduced and rates set for memberships and times of games.

Congratulations to the new-lyweds Mr. and Mrs. Don Burk (Ann Taylor).

The Government's decision to halt the stockpiling of uranium after June 30, is a great blow to the citizens of Bancroft. Michael J. McAlpine, reeve of Bancroft said, "We are shocked and greatly let down, and a little bit mad" maybe more than a little bit mad.

The reeve said the village followed the example set by provincial and federal governments which had been building up the uranium industry, and said Government spending was based on the continuation of the uranium industry. He said Faraday Mines was the last of four mines in the area to close down. Greyhawk, Dyno and then Bancroft all closed last June. The four mines had employed a total of 1,750 men, who have since moved to other mines or to other industries.

Reeve McAlpine said the village has a debt of about \$600,000, and those remaining in the village will have to carry the burden of the debt. The population is 2,300.

R. A. Webb, C.P. MP for Hastings-Frontenac, whose riding in the Bancroft area said the announcement of the closing would come as a blow to the people in the district. "One of the Government is being unkind and is making decisions before it has the facts straight", Mr. Webb asserted.

## Should enquire into branches of town organisation — Logan

Softball players who have my previous motion regarding enjoyed the use of Victoria Recreation Commission. Park for many years commented Councillor Logan may have to find a new home. Logan "here tonight we learn council learned last night. From the fact that the Park Board are our councillor Joseph Hutton doing which we should have been aware of, and yet know all Monday evening to ask nothing of the matter. This is a perfect example of what happens when council is content to take the lazy way of doing things and delegates responsibility, and then forgets about it until a problem comes to light. We should make a policy of enquiring into the branches that make up the town organization."

Councillor Logan continued "A park is not just for those who appreciate aesthetic beauty but is for all who enjoy different tastes. Unless there is a particularly good reason for the softball team to be moved out, I don't think it should be."

Earlier in the meeting Councillor Logan had moved a letter to be sent to the Recreation Commission asking for a written report on the intentions regarding a baseball team this summer. Councillor Logan said that he had decided to ask members of the parks board and members of the softball association to be present at next week's meeting to discuss the matter.

# STOP!... killing yourself

By Peter J. Steinocher, MD, F.A.C.P.

**BEE STING CAN PROVE SCENARIO**  
I wonder how you do feel if, writing this column, you sent out your daily advice all over the country and had no barometer, thermometer or what have you to measure its impact on your readers. Suppose there was the awful vacuum of silence.

Actors have told me that's why they crave to perform before live audiences. It gives them that personal contact with people they cannot get in movies or TV.

That's the way I feel about receiving letters from readers. I wonder about those whom I may have helped. Not hearing, I can only hope that the "performance" had been better than just adequate. Here, for example, is the kind of letter that is akin to applause for the actor before a live audience:

Dear Dr. Steinocher: I want to thank you so much for the column you wrote in yesterday's paper called "What To Do if Bee Stings You". Talk about coincidence. As

I was reading your column the column saved her life. Thank mother was stung by a wasp you again—Mrs. R. S. New Jersey. A few minutes after I had finished your column she developed all the symptoms of the severe case of bee or wasp bite you described. She was covered with hives and although she was stung in the arm, her face puffed up in a grotesque size. Her lips became numb and she had shortness of breath.

By sheer luck I thought of the timeliness of your column which I still had in my hand. I reread the symptoms and knew there was only one thing to do: waste no time and get her to the hospital rather than wait to hear from our doctor who was not in his office.

In the emergency room they gave her adrenaline and cortisone immediately. Today she is much improved. Mother joins me in thanking you. We feel indebted because reading it avoided a fatal misadventure. The doctor at the hospital said she had not come in, a few minutes later, her breathing had been entirely shut off. ## WHAT A DREAM!

Southampton, England (UPI)—Mrs. Pam Tripp of South Southampton, England had a dream last night that she was running madly, barefoot and with a coat over her pajamas. She woke up and discovered she was running madly, barefoot and with a coat over her pajamas outside her house which had caught on fire.

bacco. You're it, and in this tobacco-filled modern existence, it's sometimes difficult to hide away from it. Wherever you go you will find tobacco smoke.

I doubt there is any desensitization treatment that will help although you'd better leave that up to your allergist. Be thankful that your husband does not smoke; and try, if possible, to stay away from tobacco-filled rooms. I know a man who would love to play poker with his friends once a week. It was a delightful ritual until he became sensitive to tobacco smoke. It got so his eyes became so red and itched he couldn't see four Aces in his hand one night. Rather than ask his friends to give up smoking, he quit playing. (Released by the Bell Syndicate Inc.)

STOP!... killing yourself

ASPIRIN STILL A WONDER DRUG

"Take an aspirin. I'll be over to see you as soon as I can get away." This statement, and countless variations, is heard every day by thousands of patients who anxiously await their physician.

Like many of the good things in life, as we take this drug (acetyl salicylic acid) for granted. Yet, most doctors will agree, it is one of the oldest of the wonder drugs. Where there is pain, inflammation, fever—it is hard to best.

Even Hippocrates prescribed it about 2,600 years ago. But he prescribed it as willow bark. Not until 1898 did a Dr. Herich Dreser dub acetyl salicylic acid as "aspirin," although an Alsatian chemist, Charles Frederic von Gerhardt, had first isolated it in 1853.

How it works its wonder we don't exactly know. But the patient who finds relief does not really care about its working mechanism. Thousands of patients with the pains and miseries of arthritis bleed this

drug. In many cases of rheumatoid arthritis, it saves them from taking endless doses of cortisone drugs. When John or little Alice has a fever, it helps bring it down, and makes restless bones and muscles more comfortable.

It produces many other effects. Some doctors say it thins the blood; others say it helps diabetes; still others claim that it is the best tranquilizer and sleep producer they know.

It's natural for such a popular drug to be the recipient of laural wreaths from every source. It's nice to know that isn't usually half-forming like other pain killers and sleep producers. Occasionally it upsets the lining of the stomach. Most people can take it with out fear. Nevertheless, do not get into the habit of popping an aspirin into your mouth to discover the reason for your discomfort.

FOR DOCTORS ONLY Dear Dr. Steincrohn: In

recent column you dealt with the subject of sexual maladjustments and your advice to those with problems in this area was "see your doctor." The result of that advice will be a lot of disappointed and constantly unhappy people.

Eighteen years ago my husband saw his doctor at my request, regarding this subject. Do you know what happened? He laughed at my husband and was amazed at my gall for suggesting that my husband and I needed outside help.

We've contacted other doctors since but have been confronted with that same old "tongue in cheek" manner, and we left with no advice and feeling like fools. We've been married for 23 years and with a very little sex contact, as compared with the normal. I've learned to cope with it in a very weak way. When the desire to enter my husband becomes too strong, I "embrace" the bottle instead.

I'm probably wasting your time and mine but I wanted to

ask you to please tell me if I can do anything to help myself.

Yours truly, Mrs. M. J. Steincrohn, MD., F.A.C.P.

SHOE POLISH STAINS

Removing alcohol usually serves nicely for removing shoe polish stains from clothing.

point out to you the fact that many, many doctors will not listen. In fact you're the first one that has ever listened. You tell these young people to see their doctor. They go to him full of hope, but usually leave in office full of despair and go on to live a bleak existence. I know. I'm doing it. I feel dead and I'm only 43 years old.

I wish you have to tell them something, but don't make it simple and don't make that visit to the doctor sound so full of promise. When it comes to this subject most doctors couldn't care less.

I want to thank you for the courtesy you have extended me. I hope this letter helps many doctors see the light—Mrs. X.

Comment: No comment. I'm leaving that for the doctors. Let there be light, doctor.

SPORTSMAN'S DIGEST

A SAFE MUSHROOM

SOME ARE CLUTTERED

THE BEST PLACE TO LOOK FOR MUSHROOMS IS IN AN OPEN WOODS. THEY ARE FOUND WITHOUT STICKS AND GRASS. THEIR OTHER COLOR WARDEN PILES THEM. THEY MAY FROM A HEN TO A FOOT OR MORE IN SIZE. BUT FOR THOSE GRASSES, THEY ARE NOT TO BE EATEN.

IT IS EASY TO TELL THE DIFFERENCE BETWEEN A SAFE MUSHROOM AND A DANGEROUS ONE. THE SAFE MUSHROOM IS WHITE, STEAMY AND HAS A PLEASANT TASTE. THE DANGEROUS ONE IS DARK, Bitter AND HAS A PLEASANT TASTE.

SOME MUSHROOMS HAVE NAME WORDS, SOME HAVE IN SUFFICIENT FOR SEVERAL HOURS AND SOME ARE TO BE EATEN.

## STOP!... killing yourself

By Peter J. Steinhorn, MD., F.A.C.P.

## USE HYPNOSIS WITH CAUTION

Before you get me wrong, I'd better disavow the impression I may have created that hypnosis is the certain answer to the problem of anxiety. Recently I mentioned the case history of a patient who claimed that hypnosis helped her to get over her conventional methods had failed. But readers seem to have over-estimated the qualifications made in that case presentation. I emphasized that hypnosis has many inherent dangers and is certainly not a cure all.

For example, here is a note from a reader which will give you an idea of what I mean:

Dear Dr. Steinhorn: I read your column concerning hypnosis that treated the lady mentioned in your column? My wife is under extreme nervous tension also and I feel that that doctor could help her.

My Comment: Mr. F., I wish the remedy were so simple. I trust I haven't raised any false hopes. The last thing I try to be here sitting on some sort of wobbly pedestal, to be a Pollyanna. It wouldn't be fair.

It would be a bit cruel. No, as I've said in many previous columns, hypnosis is a method which should be used with caution and attempted only by physicians and dentists who have been carefully trained in its methodology. They must know when to use it, to use it and how to use it. They will know of its potential dangers as well as its potential helpfulness.

To come down to the specific, my feeling is that the best treatment for anxiety and nervous tension is still in the field of conventional medical therapy. Hypnosis should be a last resort, and used only relatively few patients.

## PILONIDAL CYST

Dear Dr. Steinhorn: What is a pilonidal cyst? My son has it. We are worried about it. Will he have trouble on and off in later years from it? He is 18 years old. Do you advise operation? It is getting infected and drains on and off. My son, until you have a real reason, on.

My Comment: If your doctor says, I agree that operation is the only effective treatment. Otherwise, it will drain on and off, until you have a real reason, on.

fous problem with oblate infection. Once it has been completely removed by a competent surgeon, your boy would have no trouble with it later in life.

A pilonidal cyst in many cases present from birth is at the base of the spine. In it is usually an accumulation of hairs. In most cases it becomes irritated, infected and drains on and off. Most doctors will agree that surgery is the only advisable treatment. Sometimes they take quite a few weeks to heal completely, but it's worth all the bother and the effort to get rid of the troublesome thing.

Dear Dr. Steinhorn: I am a 74-year-old widow. My husband passed away 2 years ago. I have never visited his grave. I do not believe in such things. I have a picture of him to remind me of our long life together in heaven some day. Many people these days believe in having cremation, but I feel wholeheartedly that we should rather give our body to medical science. I have had a gall bladder condition for over 40 years. Would I have to be in good physical health? I over-

## Newlyweds honored

Camryn (PNS)—Friends met in the community to honour Mr. and Mrs. P. Campbell (nee Glenda Daniels) on their recent marriage. Music was supplied by the Gilson Orchestra and dancing was enjoyed before and after the presentation.

Mr. and Mrs. Campbell were invited to the platform and the address was read by Mrs. Kenneth Worley and the gifts which included a pole floor lamp and wall mirror were presented by Mrs. John Louden and Miss Ona Lloyd.

The bride and groom proudly expressed their appreciation and "For they are good fellow" was sung.

leave I can help someone by giving my wife. I want to do so.

My Comment: Thanks for your letter, sweet lady. I'm sure you won't mind having many others read it. Your doctor will advise you. I like to transmit "goodness" wherever I find it. (Released by the Bell Syndicate Inc.)

## Minden survey school narrowly escapes destruction by fire

Valuable survey instruments were narrowly escaped destruction when a garage taker, Jim Minto, had to call the fire department to put out a fire in the building. The fire started in the garage when a gas fire burned to within ten yards of the building in which they are stored.

The fire, which burned about twelve acres, started when a tree fell on a hydro line at the University of Toronto Survey School on Queen Street. The school is located approximately five miles from Minden.

Since there is no telephone in the building, the fire was not discovered until it was too late.

An oil truck exploded Thursday at 410 p.m. at Edgewood Beach Lodge on Kaskagwegamog Lake and was a write-off. The truck, driven by John Moore, 25 pulled in beside two storage buildings to deliver oil. When the oil started to run, the driver walked around to the front of the truck, when leaves that were burning nearby ignited the oil causing an explosion and fire.

The truck, which was owned by the driver's father, Lloyd Moore, had the back end completely burned off. The resulting fire burned the two buildings, one of which was of frame construction and the other a log cabin.

Fire chief J. Roberts of the Haliburton Fire Department says that as yet there is no estimate of the damage. The fire occurred in Minden Township but the Haliburton Fire Department responded to the call since they were closer than the Minden Fire Department. The two departments have an exchange agreement which allows one fire department to operate in the other's area when required.

**EDITORIAL ...**

**TARGET - LIFE!**  
Accident statistics tend to remain monotonously alike each year. Sometimes, the figures get a little lower, but more often they increase. Too many of us take the accident forecasts as a part of the annual routine of living—and dying, unless a member of our family becomes number 29 or number 101 on the statistical list.  
Many agencies are trying to do something to prove the "goonheads" wrong, and one of these agencies is St. John Ambulance.  
Each year, 1.5 million Canadians die of drowning. They die in baths, ponds, swimming excavations and lakes. They die working, at pleasure and at play and many of them die needlessly.  
Seconds count. If artificial respiration is to have a chance of saving a nearly drowned person, a minutes hesitation reduces the chances of success and five minutes to run and get help can mean death. Action must be immediate and it must be right. A St. John Ambulance Save-A-Life course can mean the difference between a happy ending or a funeral.  
St. John Ambulance Save-A-Life courses are free and take only two hours of your time. Courses will be conducted across Ontario from May 11 throughout the summer. To obtain further information, you should call your nearest St. John Ambulance or write to St. John Ambulance Provincial Headquarters, 46 Wellesley St. East, in Toronto.  
Don't delay, the target is life.

**Remember way back when**

May 8, 1914  
The MacDonald Park Committee met last night in the Council Chamber for the purpose of dealing with matters in connection with the property and more especially with the proposed civic club house and fitting up of the house on the park site for that purpose. The question was discussed at length and from all standpoints when it was finally decided to ask the council for the sum of \$10,000 for the purpose of undertaking the work of renovation and improvement. Satisfaction was expressed on all sides at the splendid results accomplished on cleaning up day at the park. A wonderful transformation in the appearance of the grounds has been the result.

**At Sturgeon Point**  
Engineer Hugh, who visited Sturgeon Point, Thursday on the "Ratta" accompanied by Rev. Joseph Brown, inspected the location for the wharf which the council is urging the Government to build. The Engineer's report is expected to be of such a favorable nature as to warrant those interested in believing that the structure will be built at an early date."

**Carload of Potatoes**  
Mr. A. L. Campbell was at Netherford today where a carload of potatoes was being loaded for the firm.  
MAY 8, 1939

A defective fuse cutout or block was responsible for the interruption in service of the Hydro in one section of Kent Street. Secretary W. E. Reesor expressed the belief that the block in question had been defective for some time and when heavy load was on, it blew out. Future occurrence, it is hoped will be overcome by the purchase of larger fuse blocks with about 40% more capacity and additional transformers will be installed which will increase the transformer 30%.

**Roll Returned**  
The total amount of collectible taxes in 1938 was roughly \$10,000 less than in the previous year and the amount still to be collected of 1938 taxes is a little less than that at the same period in 1937. Tax collector H. Warham presented the following comparison to the council: 1938 taxes on lands, \$23,641.74; 1937, \$25,075.30; 1938 business, \$25,501; 1937, \$28,439; 1938 uncollectible items, \$1,688.50; 1937, \$805.78. 1938 taxes on town property, \$359.83; 1937, \$584.09. Total roll 1938, \$210,555.53; 1937, \$220,375.51.

**Reports and Remarks ...**

**DANGER**  
A recent census in the United States indicates that 80,000 figures and 100,000 tons are cut off each year in rotary lawnmower blades. On a comparable population basis, this would suggest that 5,000 fingers and 10,000 tons are lost each year in Canada in the same way. The figures do not include accidents due to objects being thrown by blades. Experiments are reported underway on a disc-shaped safety type rotary blade with a safety rim which causes objects coming in contact with it to be merely deflected toward the ground. Lands and Forests Department personnel witnessed a demonstration at the Great Lakes Park Training Institute.

**COUNCIL ARE AWARE OF PARKS BOARD ACTIVITIES CLAIMS PARKS CHAIRMAN**

May 8, 1964.  
To The Editor,  
Lindsay Daily Post.  
Dear Sir,  
As chairman of Parks Board I feel it is necessary to enlighten your readers to the true facts and sort erroneous reports made in council chambers. My Mayor is an ex officio member of the Parks Board and he is always welcome to our meetings. So is any member of council, reporter or any citizen of our community. A copy of our minutes is forwarded to the Mayor's office as soon as possible after our monthly meetings. These minutes are available to all members of council if they care to read, so that no member need be in the dark as to what the Parks Board is doing or thinking.  
It has been the custom over the past few years for the recreation manager to make a written report for the use of Victoria Park for the softball games. Requests have always been granted. Up till this time of writing no request has been made. But we have never told anyone by letter or verbally that there would be any changes.  
It is the feeling of the Board and Park Manager that the change in foot wear from run min shoes to spiked shoes of the soft league baseball players makes it difficult to keep good looking grass in this park — this is our only complaint.

We the Parks Board have been asked by the Mayor and Council to prepare a program or plan that may be used as a central project. The thoughts of the Parks Board has been the beautification of Victoria Park, the entire piece of the town. The location and facilities here is the beautiful shade trees, the artesian well, the open space for flower beds, this park could be a real tourist attraction and a joy to every citizen.

Because of our lack of funds in the Parks Board after wages we have approximately \$30,000.00 for our parks, we have had to ask for the free assistance of professional help of the Dept. of Horticulture at Guelph to submit a plan for this project.

**30 attend meeting**

Blackstock (PNS) — Approx- imately 30 persons attended the monthly meeting of the Recreation Committee or management, or any other group or organization who wish to use the parks. We have been empowered to provide and maintain parkland for our citizens — this we endeavour to do to the best of our ability and ask the support of our fellow citizens after hearing the truth instead of a lot of false rumors.  
Chairman of Parks Board Mr. Harold Kyle closed the meeting with devotional music was served.

**if you can lift a finger  
you can start  
the 1964 Lawn-Boy**

The 1964 Lawn-Boy has the easiest starting power motor engine ever built. Simply (1) switch starter motor to "on" and push once to prime engine; (2) lift up starter handle with two fingers and you're ready to start cutting.

And there's an ingenious new grasscatcher that can't clog because it fills from the back of the deck. A throttle control provides low speed for light cutting and high speed for rough cutting. Adjustable wheels level the yard to desired cutting height without tools.

Lawn-Boy's 3 horsepower engine gives you enough sputter to cut through even the thickest grass. And back of it all, you get Lawn-Boy's two-year warranty; twice the warranty anyone else offers. Get your fingers on a new Lawn-Boy soon... at your Lawn-Boy Dealer's. He's listed in the yellow pages.

Cut liver in large pieces and put it, bacon and onion through the food chopper. Combine this mixture with the celery, corn flakes, salt, pepper, margarine and chili sauce.

**CRISPY FRIED FISH FILLETS**  
2 large or 4 pickered fillets; 2 tsp. salt; Buttermilk; ¼ cup cooking oil (approx.); ¼ cup butter (approx.); ¼ cup cut up paprika.

Wash fillets and cut into serving-size pieces. Lay in a single layer in a large flat dish. Sprinkle with salt. Pour in enough buttermilk to cover fillets. Let stand 30 minutes. Lift out fillets and drain. Put oil and butter in a large heavy skillet and heat well (there should be about ¼ inch

Turn out on lightly-floured surface and knead gently about 6 times to round up. Roll ½ inch thick. Cut with 2-inch cookie cutter. Bake each round fold in half pressing edge in. Bake about 10 minutes on until well browned. (Makes 16.)

## CGIT Mother, Daughter banquet held at Sebright United Church

Dairymple (PNS) — An annual event of wide interest took place in the Sebright United Church when the CGIT girls and their leaders played host to the mothers and guests at their Mother and Daughter Banquet.

The hall had been tastefully decorated in springtime colours of yellow and green, with daisies and yellow tapers on the tables. A display of the attractive crib quilts which the girls had made in their craft sessions was on view.

The programme was arranged as follows: Welcome by Pam Brooks. Introduction of guests by Evelyn McDonald. Grace by Milly Gilbert. A delicious turkey banquet was then served. The Queen was toasted by Judy Eastcott in after dinner programme. A toast to the mothers was proposed by Judy Dewell, and responded to by Mrs. C. Towne. Mr. Huntton gave the Minister's remarks. Mrs. W. Wright brought greetings from the U.C.W. Rev. Parker made a few remarks on behalf of the men of the Church.

The speaker of the evening Mrs. D. Whelan of Beaverton was introduced by Ruth Eastcott. She is an ardent CGIT worker and Camp Counsellor who gave a fine address to the girls. Mrs. Whelan first called on the girls to suggest words which began with CGIT which could describe the ideal CGIT girl. After hearing many suggestions, the speaker chose the following words to be the basis of her address: C-Courteous, G-Genuine, I-Ideal, T-Trustful, M-Mrs. E. Thompson led. The girls in several songs they had learned at CGIT.

Wendy Campbell conducted the table centre, which were won by Mrs. A. Brooks, Mrs. Lowery and others.

Thanks to all who had contributed to the evening were given by Lorna Gilbert. A ceremony of presentation to two senior girls of their white lavender lock piece. Pam Brooks and Lorna Gilbert were honoured by their leaders, Mrs. Gilbert Mrs. McGaughey and Mrs. Adams.

After these pleasant events took place the evening ended with Benediction by Mr. Huntton and Taps.

## Kavaliers to visit Lions convention

The Kavaliers Drum Corps, Lindsay, will enter competition in the new uniforms when they represent the Lindsay Lions Club at the Lions District Convention in Kitchener on May 31. The best two bands from this convention will go to the Lions International Convention in Toronto sometime in June. It is reported that there will be over 200 bands present at the International Convention and television cameras will be present to relay the scene from coast to coast.

Mr. M. J. Cunningham, spokesman for the Kavaliers' executive, told "The Post" requests to engage the band are being received at a steady rate. Among them are a number of inquiries from the United States.

## Sheldon shows old form, pitches three-hitter

Roland Sheldon, who helped pitch the New York Yankees to the American League pennant two years ago, is showing his old form for the International League's Richmond Virginians.

Sheldon, a 28-year-old right-

hander from Putnam, Conn., threw a three-hitter last night as the Virginians defeated the Syracuse Chiefs, 6-1.

Sheldon, whose record is 2-0 this season, lost his bid for a shutout in the ninth inning when John Sullivan touched him for a home run.

## New York top Washington 9-6

Maroons win their first Allan Cup

The Winnipeg Maroons won their first Allan Cup last night. The powerful western team defeated the outcasted Athletics 9-6 to sweep the best-of-seven Canadian Championship in four games, all played in Winnipeg.

The Athletics made a desperate third-period try to stay in the series, at their rally fell short. The score was tied 1-1 after the first period but the Maroons pulled ahead 4-1 after 40 minutes of play.

The Eastern representatives came within one goal of tying the score in the third period. When some thieves in Lafayette, Indiana, stole Mr. E. R. Rost's broke their drive. It was the third try at the cup, much. A few days earlier in four years for the Maroons someone stole her dog.

Yesterday's baseball action — the New York Yankees topped Washington 9-6 — Cleveland whipped Baltimore 9-4 — Boston defeated Detroit 7-3 — and Minnesota clipped the Los Angeles Angels 6-1.

In the National League — St. Louis dominated Pittsburgh 4-2 — Philadelphia slugged Milwaukee 9-6 — San Francisco edged the Chicago Cubs 7-6 — The New York Mets shaded Cincinnati 3-2 — and in a night game on the west coast, Houston nipped the Los Angeles Dodgers 2-1. —UPI

### Lasooes' gator to prove his story is true

Topseal Beach, North Carolina.—UPD—This is a sea tale to appeal to all sailors and anglers in the ocean off North Carolina.

Nobody believed Louis Fort last year when he said a sea lion came out of the ocean near his fishing pier at Topseal Beach, Tuesday Oct. 20, and an even stranger sight—an alligator—and he was determined not to be laughed at again. He lassoed the gator. The sea lion had been much more elusive and Fort said all he got was pictures, but told the negatives and nobody believed him. He said: "This time I've got the proof." How the alligator got in the ocean... Louis Fort can explain.

### Rainbow Bridge school guard shelved

Council are to review again in the Fall the request for a school guard at the Rainbow Bridge crossing during the time the school children cross the bridge. The request was shelved following a report from Councilor Carl Brown, chairman of the Police committee at Council on Monday evening.

Mr. Brown said Constable William March had observed the bridge at regular time over a two week period and stated in a report that an average of 44 school children crossed the bridge and seldom where there more than 10 to 15 children on the bridge at the same time.

"The report is a 'false' as Constable March was acting as a guard while he made the survey and as long as the stable stood there and the children what school they attended, there wouldn't be any horseplay on the bridge, I don't give this report much credence," said Councilor D. Peter Gill. "The use of the bridge should be observed without a policeman present."

Mayor Joseph Holtom being looked at again in the Fall when the bridge could be observed in an unobstructed manner. The Separate School board had earlier asked council to investigate the possibility of stationing a school guard in the area.

TAN NOT SUNBURN  
Almost everyone's ambition is to return from vacation with a good tan. Don't try to get this tan on the first day by lying out in the strong sunshine in a swim suit. Students who are working outdoors during the summer vacation should wear a covering on the head and shoulders. A bad sunburn should be treated as any other burn and if it is serious, the patient should see a doctor.

### 200 PRESENT AT INTER-FAITH DIALOGUE AND DINNER MEETING

Ministers from six of the dinner, served by the Catholic and Protestant churches in Lindsay Women's League, and the priest and curate ofologue which followed in the St. Mary's Roman Catholic hall attractively decorated Church were included as head-spring flowers. The dialogue guests at the Inter-Faith Dialogue and Dinner held by Rev. Father S.E. Kutz, St. Mary's Auditorium on Sat. C.S.B. and Dr. the Rev. W.O. Fennell, B.A. Both Father Kutz and Dr. Fennell are comparative event for the nearly 200 people present; it was the first occasion on which Roman Catholics and Protestants in Kutz did graduate study at the University of Munich, Germany, and is presently a lecturer in theology at St. Michael's College Toronto. Dr. Fennell did graduate study in New York, and in Strasbourg, Germany, and has been on the staff of Emmanuel College, Toronto, since 1946.

Each speaker approached his subject with a painstakingly articulated knowledge of his own church's doctrine, and a respect for the differences which separate Roman Catholics and Protestants. Their encounter was characterized by a combination of conviction and balance. Dr. Kutz spoke to all denominations when he reminded us that "the more faithful we are to our own sources, the closer we can come together", and Dr. Fennell expressed realistic good-fellowship with these words: "It is good for us to be enthusiastic about drawing together. It would be false to be blind to the difficulties which confront us".

The open question period Catholics 40 and 60, Mount Forest and Wingham 38 and brought questions on subjects as varied as Baptism; the place of the Virgin Mary in Roman Catholic liturgy; and the

ture of the true Church. Dr. at the close of the meal by Fennell and Father Kutz led Father R.J. Hart. Together, with table questions with singing the gathering stood to sing a hymn of praise, to repeat the Apostles Creed and — at the meal by Rev. Ben Garrett, of close of the evening — to say Queen St. United Church, and together the Lord's Prayer.

# Smythe willing to take gamble

(United Press International)  
Toronto Maple Leaf President Stafford Smythe says he is willing to take an eight-million dollar gamble in the expansion to Vancouver.

But Vancouver city officials must give Smythe the green light first.

Smythe wants Vancouver to provide him with two million dollars worth of free downtown land for a 30-hundred-seat, eight-million dollar coliseum.

At the same time the Leafs' front office rejected a proposal from the Vancouver suburb of Burnaby offering land to build an arena there.

Vancouver Mayor William Rathie has expressed willingness to cut red tape to speed arena discussions but Smythe has told him not to be stampeded.

# May hits 12, 13th homers of season

Willie Mays hit his pair of homers — his 12th and 13th of the season — as the San Francisco Giants drubbed Houston 6 to 0 last night. Pittsburgh edged Cincinnati 3 to 2 — St. Louis shaded Philadelphia 4 to 0 — and the Chicago Cubs beat the Los Angeles Dodgers 3 to 2 on a ninth inning error.

In the American League, Detroit snapped a five-game losing streak and ended a New York Yankee five-game winning streak, 7 to 2. Minnesota pounded the Chicago White Sox 11 to 1 — Baltimore thumped Washington 5 to 6 — Cleveland ripped Boston, 8 to 5 — and in a West Coast night game, Kansas City downed the Los Angeles Angels, 6 to 2.

## Daniel (Dan) Quibell

Daniel (Dan) Quibell whose death took place at the family residence in Danville, New York State, was well and favorably known to a wide circle of relatives and friends in and around Harvey Township, Burnt River, Fenelon Falls, Robertson, Peterboro and Lindsay. As a resident of New York State he was also well known to many business and fraternal circles of Buffalo, New York.

The late Dan Quibell had many staunch friends, not only in business, but in the realm of sport. He was a lover of the wide outdoors and its many wholesome attractions; he was a fisherman and a hunter more than average ability. The large attendance of friends and mourners at the funeral service at Danville was evidence of his popularity as a community-minded citizen.

The deceased gentleman, who was in his sixty-fourth year was born in Harvey Township, a son of the late Mr. and Mrs. Thomas Quibell. Following his public school life he became a young man, became associated with the grocery business in Perinton Falls owned and operated by the late Chas. Burgoyne, and it was while employed with Mr. Burgoyne that he deceased became well versed in the rudiments of the grocery business.

It was not surprising to his friends when he became manager of the Larkin Stores in Buffalo and later moved to the Town of Danville as manager. Later he established a business of his own which he conducted successfully up to the time of training facilities in the area his retirement, two years ago concerned.

## OMA secretary to address Canadian Club

Dr. Glenn Sawyer, General Secretary of the Ontario Medical Association, will address the Lindsay Canadian Club on May 14.

Dr. Sawyer, born in Perth County, served a pharmacy apprenticeship but then decided to go into medicine. He graduated from the University of Western Ontario in 1908 and after interning for two years at Ottawa Civic Hospital, he went into practice in Perth. He later became a Fellow in Surgery at Victoria Hospital, London, but then returned to private practice, this time in St. Thomas.

In 1949 Dr. Sawyer became a member of the Board of Directors of the Ontario Medical Association and joined the Secretariat in 1952.

## Fanok believes in getting off on right foot

Jackonville's Harry Kanok believes in getting off on the right foot.

Fanok, recently sent down by the St. Louis Cardinals, belatedly celebrated his 24th birthday which occurred a day before his first International League start this season by defeating the Syracuse Chiefs 2-1, last night.

Fanok, a hard-throwing right-hander who worked for Atlanta last year, required very little help from George Schults and Harvey Branch in the ninth inning.

Buffalo edged Richmond 5-4 on Duke Carmel's two-run homer, his fifth of the season, and the relief pitching of Al Pehannik, who gained the victory.

Rochester topped Atlanta 4-4 on Earl Robinson's two-run homer in the ninth inning which snapped a 4-4 deadlock.

## Patient anglers await a catch

Many anglers lined the banks of the Seacow River at Lindsay over the weekend and waded into the water when the pickered season opened. Few fishermen seemed to be having much luck with their catches but carried on fishing despite being discouraged.

## STILL HALE AND HEARTY — MRS. S. SHARPE OF LINDSAY CELEBRATES HER 90TH BIRTHDAY

"The Good Book says that, the average span of life is three score years and ten, but the Gracious Lord has been good to me for on Sunday, May 24 I observed my Ninetieth birthday," said Mrs. Sam Sharpe, of Lindsay, who resides with her son-in-law and daughter, Mr. and Mrs. Norman Sessmith at 76 King Street. It might be that this friendly and kindly senior citizen will live to see her "Ninety and Nine" birthday. Friends and neighbours who had a cup of tea and a piece of birthday cake a week ago Sunday were delighted to see the bride of seventy years ago looking so hale and hearty.

When Mrs. Sharpe (the former Margaret Menzies) of Fenslon Falls was married seventy years ago she and her husband started their home on by attending to Chinese-made production or play in the Lindsay Theatre of Music on Lindsay Street, the theatre which is now undergoing renovations.

Mrs. Sharpe is proud of her ancestral tree and rightly so, the Menzies being one of the pioneer families in the village of Fenslon Falls. The mentioned with pride that her great grandfather's name was Robert Langton Menzies and that the Langton family created early history in Fenslon Township. She then hailed of Nythe in time achieved a certain degree of fame because of the books written by Langton and his sister Annie Langton. As a matter of fact Mrs. Sharpe's father was the first white child born in the settlement, the majority of the inhabitants having been Indians. Mrs. Sharpe is also justly proud of the fact her mother was one of the McCreimons, a name highly respected in the Glen in Mariposa Township.

The subject of this historical sketch is in many respects a remarkable woman. While she had only two months of schooling in the little "red schoolhouse", and this when she was only seven years old, she realized at this early age that she must learn to read and decided that one year would be to learn how to read story books. A friend secured her a membership in the public library. When she presented her ticket to the librarian she was asked what book she wished to read and her reply was a logical one,

"I would like you Sir, to pick one out for me". As time went on she was able to learn to read by sight following the procedure of having a young friend read the stories to her. The young girl had a great desire to read and soon became adept and to this day reading is one of her great pastimes.

As a girl, Margaret Menzies was quite athletic and she recalled vividly her thrilling experience shooting the first running rabbit at Rosedale at the head of Cameron Lake. "My young brother was with me in the canoe and we decided to dare the treacherous and very fast rough water. Once we entered the rapids I said to myself, 'Goodby, Fenslon Falls and home!' for I thought we would perish, but we came through all right. I loved that canoe."

"These were the days before the locks were built at Fenslon Falls and it was great

fun to watch the hundreds of logs shoot down the large wooden slides and to watch the horse-powered apparatus shift the platform at the end of the slide-way."

Mrs. Sharpe witnessed the growth of Fenslon Falls, called the Cataract Village and was interested in all phases of its development, even to the days when the Falls had one of the best championship hockey teams in Ontario, a team that was not defeated for a long time. The players included: Alvin "Shake" Gould, Cecil "Dodger" Dymann and his brother Louis, Edward "Pete" Betts and others.

Fenslon Falls was proud of a number of fine progressive citizens including such names as: Norbony, McCallum, Brandon, Jankin, Heard, Northey, Nevison, Aldous, Twomey, McDougall, Jordan, Fitzgerald and others.

## Janelville

Mr. McGowan returned to her home in the village after spending the winter with her daughter in Raytown, Missouri, U.S.A.

Mrs. Alex Taylor is a patient at the hospital in Peterboro. Everyone wishes her a speedy recovery.

The C.G.T. girls held an afternoon tea and bake sale. They had a very successful afternoon.

Mr. and Mrs. Laurence Whitehead of Oakland visited at the home of Mrs. W. Irvine. Everyone is glad to know that little Elaine McGill, at home from the hospital and is able to be about again.

## THE BIRDS

Old Doleyn, North Wales — More than 50 Sea Gulls swooped down on Mrs. Margaret Roberts, 42, yesterday as she was walking with her dog in Old Colwyn, North Wales. The gulls attacked Mrs. Roberts after her dog had chased a young gull.

## Married at Lindsay

It is interesting to note that Mr. and Mrs. Sharpe were married by Rev. Mr. Campbell, at that time Minister of Cambridge Street Methodist Church. Three of the family are living. Eric Sharpe of Lindsay, a veteran of two world wars, now in the rubber business; Roy R. Earnie and Mrs. Norman (Jean) Sessmith with whom Mrs. Sharpe makes her home. Two sisters of Mrs. Sharpe live in St. Catharines, Ontario.

The late Mr. Sharpe was widely known as a master carpenter employed by the government on construction work in various parts of the province, building, chiefly, bridges, locks and wharfs. He supervised the building of the old white swing bridge across the Seacow River in Lindsay, the bridge having been replaced by the present large steel and concrete bridge on Lindsay Street South a number of years ago. As a fitting close to this study of a most interesting citizen, it is worthy of note that Mrs. Sharpe is an honorary member of the Eastern Star, an honorary member of The Ladies Auxiliary to the Canadian Legion and an honorary member of the Canadian National Institute for the Blind.

## MEAN FEWER WIDOWS

Often the choice is to be a nagging wife, or become a nagged widow.

Here is what I mean. I have at least a dozen women who have said to me after their husband's death: "Somehow I blame myself because I didn't nag him into going to see the doctor in time".

For example, a man is too fat. His wife has a choice to say, "You're too fat, you'll get heart disease," or she can say, "You're too fat, you'll get heart disease."

Some women have the courage to stand up to their husbands when they react with the usual explosion: "Stop nagging, will you?" They realize

where health and life are concerned it is her heritage to keep her family together. Once over the initial hurdle of resistance, the husband will let her have her way. I have at least a dozen women who have said to me after their husband's death: "Somehow I blame myself because I didn't nag him into going to see the doctor in time".

For example, a man is too fat. His wife has a choice to say, "You're too fat, you'll get heart disease," or she can say, "You're too fat, you'll get heart disease."

Some women have the courage to stand up to their husbands when they react with the usual explosion: "Stop nagging, will you?" They realize

more than 8 million widows in the United States have been growing by more than 100,000 a year, compared with an annual increase of about 80,000 in the 1920s and of about 50,000 in the 1930s. There were 11 million in 1961, there were 11.8 million in 1962, there were 12.6 million in 1963.

## SUMMER CAMP

If your youngsters are going to camp this summer, it's time to give thought to the matter. The health conditions of a camp are important; what are its provisions for safety? Is the diet planned and prepared by a qualified nurse available? Do all the children have a physical check-up and a doctor's certificate?

Exactly how "health naging" will change those statistics, I do not pretend to know. But a man saved here and there for his wife and family is, in my way of thinking, worth all the trouble. Besides I have a suspicion, whether they seem to resist it or not, that the most men appreciate who worry about this, so, get to it, girls. In addition to saying, "Don't forget to wear your rubbers," or "Don't forget to take your raincoat," when necessary don't hesitate to call out: "Don't forget to see the doctor today!"

Dear Dr. Steinhilber: My mother has heart trouble and swelling of her legs quite frequently. I have been told by a neighbor that taking water is true for Mrs. C. M.D.

By Peter J. Steinerhoff, M.D., F.A.C.P.

**DOCTOR ANSWERS READERS' QUESTIONS**  
Dear Dr. Steinerhoff: What causes small cuts or minor injuries to become infected so easily? Could this be due to some vitamin missing in the initial, as my husband has dieted?—L. L.

Comment: I'd check for some other reason than lack of vitamins. For example, it's well known that patients with diabetes are prone to infection. That's why we warn diabetics to take care of any small injuries, especially around the feet or legs. They may spread rapidly to become serious.

A common complication in diabetes is carbuncle. The or a year ago my doctor took a biopsy sample on the back of basal metabolism and my reading was plus 12 per cent. He prescribed some medication for an "obstructive thyroid". Unfortunately, he passed away. I sought out another doctor who stopped the medication. He said the plus 15 reading does not signify any overactive thyroid. What is your opinion?

**HYPOTHESIS TO BREAK HABIT?**  
Dear Dr. Steinerhoff: Please

give me your opinion of hypnosis to break the cigarette habit. My family physician pertains-bound iodine test. This also determines whether a thyroid gland is too lazy or too active.

Comment: I agree with your family physician. Don't fool well known that patients with diabetes are prone to infection. That's why we warn diabetics to take care of any small injuries, especially around the feet or legs. They may spread rapidly to become serious.

For Mrs. P.: By "microorganisms" we mean such as bacteria, virus, etc.

**Save the Trees**

**Delegation asks Lindsay council**

A delegation of ratepayers from Cambridge street south led by Mr. Sutton and Mr. Castello appealed to council to save the trees lining their street from Kent to Glenagh when the street is widened to 44 feet.

The town engineer Eric Booth explained the reasons that would be encountered in saving the trees, "as the construction requires drains at the curb and the cut at the curb will excavate some of the roots". In addition, Mr. Booth pointed out, the re-location of hydro lines might cause severe trimming to the trees.

Mr. Sutton presented a petition to council signed by all but one of the residents in the area. "We are very concerned about this and we will go to any reasonable lengths to keep these trees", he told council.

Mayor Joseph Holton said the petition would be submitted to the Board of Works for their consideration.

Mr. and Mrs. Norman Roberts and daughter are in Ross for a few days.

## EGGS BAKED IN HUNGARIAN MUFFINS

4 large English muffins; 2 tablespoons soft butter or margarine; 4 eggs; 2 teaspoons cream or milk; ¼ cup grated processed cheese.

Method: Cut the centre from each English muffin with a three-inch cookie cutter, cutting almost through to the bottom. Work the circles free with a fork or sharp knife. Spread centres of muffins, and the cut-out portion with butter. Place on a baking dish. Break an egg into each muffin and top with one teaspoon each of milk and the grated cheese. Bake in a 350° F. oven until the eggs are soft-cooked and set. The cut-out portions will make good out-of-hand eating. Yield: 4 servings.

## RIBBON CHEESE LOAF

Bake at 375° for 45 minutes.

Makes 1 loaf  
2 packages refrigerated buttermilk or buttermilk; 1 cup ricotta; 1 cup grated Cheddar cheese; 4 ounces; 1 tablespoon melted butter or margarine; ½ teaspoon dried parsley flakes.

1. Separate the 12 rolls in each package, then split each into 3 rounds. (It's easier if you work with 6 rolls, or 4 rounds, enough for one layer.)  
2. The loaf at a time. Rounds may not all be evenly thick, but that will not affect the baking.)

2. Arrange the 24 rounds, water, with a little rosemary overlapping slightly, in 3 rows added, is time for cleaning in bottom of a greased 2½ white painted woodwork.

## Auschwitz horrors unfold again in War Crimes Court

The horrors of Auschwitz were unfolding again today as the German court trying 22 defendants for war crimes probed deeper into the machinery of Nazi killings.

The court, sitting in downtown Frankfurt, summoned a shy-looking ex-inmate from Poland.

He was to testify of his knowledge of the activities of one man, Wilhelm "The Devil" Singer, a former SS-man bled out by many as one of the cruelist Nazi hangmen, and Oswald Kadner, ex-SS man described as dangerous by witnesses when he walked into the camp for booze, bent on torturing prisoners.

## New rules to bring order to an unruly house

Another forward step in streamlining Canada's legislation to present their ideas to the sub-committee on procedure, headed by New Democrat Stanley Knowles, has been working on ways to cut out contentious debating in the Commons and thus bring more order to the unruly house.

The five-member "business committee" from all parties will soon present their ideas to the full committee on procedure for approval. The new effort is called for a more strict rules to cut down useless debate—especially on departmental estimates—on the floor of the Commons. A new time limit would automatically end a vote and government's part to introduce closure to stop debate on the governments say so.

A real estate deal . . . where Lloyd Horlin, Queen Street businessman purchased the summer cottage known as the Hayes cottage at Pleasant Point. The cottage was owned by Bert Hayes and is located to the north of the stone lodge.

## What's new . . .

There are many citizens in Lindsay who will agree with the government proposal to levy a penalty on owners of motor vehicles who use the boulevards for parking purposes. The cheap custom of parking on boulevards and in front of private property has been allowed to go unchecked. Property owners will be pleased to see the enactment of law forbidding these unsightly vehicles parked in front of private boulevards and cutting up boulevards.

Curlier in Lindsay and district will be happy to hear that Mr. Cliff Gilgley has been elected to the office of president of the Ontario Ladies' Auto Association. During the past two years Mrs. Layley has travelled from coast to coast in the interest of the Association. Mrs. Gilgley was one of the founders of the Ontario Ladies' Club and through the years have given fine service.

Low water levels in the Huron basin have been causing many cottagers concern. A number of lakes private docks are not in the lap or wake of lake water. In some instances water levels are reported to be twenty feet or more out below normal levels. Some lake cottagers owners are threatening to ask for superintendence of water levels by officials of Lands and Forests department, rather than by officials in offices at Peterborough and Ottawa.

## How to Plant Roses

(1) Dig a hole 18" wide and about 17" to 18" deep. Remove one inch of soil, prepare soil with 10 lbs. of fertilizer. Fill hole with several cups of soil and water. (2) Place rose bush on mound as they had upon (bushes, water) and is at about ground level and spread roots naturally down slope.

(3) Work in the soil around roots to eliminate air pockets. Fill hole 3" full and tamp down firm. Fill hole with several cups of soil and water.

(4) Fill in mulch of soil with water and mound up around roots to a height of about 3" to 4" in soil. Allow this protective mound to remain 2" to 3" high after watering.

In place roses, remove spines, plastic or wire covers that may be around the roots. If the roses have a ball of soil, remove it. The roses should be planted in the hole as they are, the Canadian Nursery Trades Association. If it is not the hole, get away to the top soil, take a shovel blade and dig the hole, leaving the hole to be better in a ball down side. This will allow the roots to grow normally and will not disturb the earth around the roots.

# King Albert H & S 1964-65 executive installed at last meeting of term

Mrs. I. Henry, president, chairs the King Albert H. and S. School's last meeting for this term.

With rhythm and easy style, some dancing and folk dancing. These children, from Grades four, five and six, were taking instruction from Mrs. M. M. Taylor and Mrs. A. Lloyd after school hours. They were given crests by Mrs. Lloyd and complimented by Mrs. S. Brown.

King Albert School is proud to have won the three trophies for inter-school competition in football, hockey and soccer during the 1963-64 season. The boys who were responsible for bringing these achievements to this school, were treasured by the H. and S. Association. A medal at the Chicken Bar-B-Que. At the meeting, they were given crests and Mr. S. Brown complimented Mr. A. M. Schreiber for his fine leadership and the sportsmanship in manner that these boys were brought to this school. Fred Gowden thanked the boys and S. Brown of the boys for the supper.

Mrs. K. Brenni read the minutes and were approved and Mrs. S. Brown read the treasurer's report. During the business session, it was proposed by Mrs. S. Brown that they honor academic achievers by

by awarding a crest to anyone who is doing better than expected of him. This was passed and approved.

Mrs. W. Lewis introduced Miss Pat Saunders, a grade 12 student and now a fully qualified instructor with the Red Cross, who was the guest speaker. A film "Water Wreath" was shown and proved to be thought-provoking with the water and swimming as a subject. Miss Sander's subject was "Drown-proofing," which is a method of staying afloat by Prof. Fred Lanoie. This will be taught the children at the pool towards the end of the season and perhaps to adults, if there is demand for a class.

Mrs. Henry introduced Mrs. D. McCallum, who is a former president of this Association who installed the new executive for 1964-65, as follows: President, Mrs. I. Henry; Vice-President, Mrs. H. Stevens; Secretary, Mrs. M. Rovell; Treasurer, Mrs. I. Norris; Co-Secretary, Mrs. A. Busbey; Executive Comm., Mr. W. J. Brown, Mr. W. Motley, Mr. T. Drinkwater, Mrs. G. Hatley, Mrs. D. Charlesworth, Mr. W. Huskinson.

The singing of The Queen brought this meeting to a close. Mrs. Kennedy, Social convener, and helpers served a lovely lunch and coffee.

# NATO TO PREPARE NEW 5-YEAR PLAN

The Western Allies are pushing ahead with a July meeting of NATO defense ministers in Paris.

NATO sources at The Hague say the purpose of the meeting would be to prepare a five-year military blueprint for the Atlantic Alliance.

The defense ministers would lay down NATO defense policy, strategy and armament goals up to 1970.

One source says the United States hopes to push a plan for a nuclear-armed nuclear force of surface armed with polaris missiles at the meeting.

## 1964 Lawn-Boy grasscatcher ends raking spring, summer and fall

In the spring Lawn-Boy's grasscatcher lets you tidy up the lawn without tedious raking. In the fall it collects leaves. In the summer, of course, it gathers grass so efficiently the neighbours will think you spent hours raking. The grasscatcher is no trouble to use because it comes on and off in seconds and empties in a shake or two. Even wet grass and leaves can't clog it.

Lawn-Boy's Finger-Tip-Start engine is the easiest to start in the world. Pushing is easy because Lawn-Boy is made from ultra-light magnesium. And, to be easy on the ears, Lawn-Boy is extra quiet. Its muffler is the largest on any mower.

See the 1964 Lawn-Boy at your dealer's soon. It's warranted for two full years—twice as long as any other mower.

Whether or not to spare the trees causes spirited discussion at Council

Economics Minister to be at ceremony

The problem of Lindsay's trees was discussed at length at Lindsay council on Tuesday evening when Reeve R. Moore raised the question of the necessity of removal of the trees on Cambridge street. The engineer concerned with getting the street widened, said, "I am more concerned with the trees, I don't go along with it." The Reeve said the matter had come up again at the Kwanis meeting and he said some were "those" like the council removed.

Mayor Joseph Holton explained the reason for the widening of the street was because it had been designated a semi-artificial road. "However," he added, "it was 59 ft. wide for years. Instead of the required 44 feet wide, perhaps it would be wide enough, and we could save a row of trees."

"Some of the trees are very dangerous," continued Mr. Brown, "for instance at one end we were inspecting trees and when a man was killed one of them fell over. I am afraid the public makes it look as if we are taking trees down in mass."

"There are many factors to be considered," said Mayor Joseph Holton, "we have to decide whether trees are to go on town property or on private property." Most of the trees in town are about 80 years old, he said.

# Haliburton man on trade mission to Europe

W. A. Kye of Haliburton, president of W.A. Kye Enterprises will be one of a thirteen-man Canadian trade mission who will study the Western European and British Markets for Canadian factory-built houses. The mission leaves Canada on May 22 to visit Spain, France, Germany and Britain, returning June 12.

The Department of Trade and Commerce is sponsoring this Canadian factory-built Housing Mission in order to make known abroad the wide variety of factory-built houses readily available from Canada. The mission members will be looking into such matters as design, style, financing, local building codes and other special housing requirements in the countries to be visited, on behalf of the Canadian industry.

Population growth coupled with buoyant economic conditions had caused an unprecedented demand for housing in many countries of the world. Interest, abroad particularly in Western Europe and Britain, indicates that Canadian prefabricated houses can help solve the current housing shortage.

Because of Canada's advanced

manufacturing techniques and long experience with the use of timber frame construction, Canadian manufacturers of prefabricated houses have been successful in making sales in several countries around the world on the basis of quality and design.

When the Mission returns to Canada, its findings will be made available to the industry through publication of a Mission Report.

Members of the Mission are: D. K. Gehring, Summerdale, PEI; P. R. Francis, Lancaster, NB; P. M. Shearer, Beadale; Harold H. Alexander, Toronto; W. A. Kye, Haliburton; Sol Burke, West Hill; Robert Johansen, Saint Romuald, Que.; T. Jankowski, Quebec; V. S. G. Lewis, Calgary, B.C.; Nelson, Lloydminster, Alberta; L. Greenall, Burnaby, B.C.; Peter G. Ducek, Clearbrook, B.C.

### Pearson showed "poor timing" with new flag "jeopardizes unity for political advantage"

A varied cross-Canada re-  
action is starting to build up  
around Prime Minister Lester  
Pearson's campaign to replace  
the Red Ensign with a maple  
leaf design.

Strong opinions are being  
expressed both pro and con—  
through editorials, through  
opinion polls and via letters to  
the members of parliament.

A blistering broadside came  
from the Winnipeg Tribune on  
Tuesday night. In effect, the  
editorial in the evening news-  
paper said that the flag propo-  
sal was bad. It said, "The  
dominant reaction is disunity"  
— and added that Pearson  
showed poor timing in intro-  
ducing the design before the  
Royal Canadian Legion.

In its strongest words, the  
editorial charged that Pearson  
is "willing to jeopardize na-  
tional unity in the hope of  
political advantage." In Van-  
couver a Tuesday poll showed  
that leading British Colum-  
bians are split into equal parts  
over the Canadian flag issue.

The main objections to the  
Pearson design were that it  
looks "anemic, weak, and  
skinny."

And from Fredericton, Pre-  
mier Louis Robitault of New  
Brunswick lined up the first  
premier to become in favor of  
the Maple Leaf flag on Tuesday  
night.

Strong opposition to the new  
flag is solidifying among the  
Tories in Ottawa.

Opposition leader John  
Diefenbaker said Tuesday he  
has received a flood of tele-  
grams protesting the govern-  
ment position.

Meanwhile in Ottawa, the  
battle of the flag was given a  
rent on Tuesday, as Prime Min-  
ister Lester Pearson and his  
24-man cabinet mulled over  
maple leaf designs they hope  
to make a choice later today.

But opposition leader John  
Diefenbaker has refused Pear-  
son's challenge to test the  
government in a non-confi-  
dence vote on the flag issue.  
A chance for this would come  
during the two-day supply de-  
bate on Monday.

Diefenbaker said it is not for  
the government to tell the op-  
position what to do. The op-  
position leader added that any  
common vote based on Pear-  
son's handling of the flag issue  
would be a failure because the  
Prime Minister did not seem  
prepared to allow a free vote  
among his members.

Nonetheless, the prospect for  
a new Canadian flag did move  
ahead. The cabinet did ap-  
prove yesterday the principle  
of the maple leaf motif for the  
flag.

A Vancouver Conservative  
official has put northern at-  
tention on the issue by ap-  
pearing on the spot over the con-  
troversial flag issue.

Pearson MP J. P. Browne to-  
day telegraphed Laing to find  
out if he intends to keep an  
election promise to vote for the  
retention of the Red Ensign as  
Canada's National Flag.

Browne said the Liberal  
Minister made the promise  
during an all-party forum in  
the 1963 election campaign.

But even if Parliament ap-  
proves a design quickly, it is  
still unlikely that Canada will  
have its new flag flying on  
Dominion Day, July 1.

The physical problem of  
actually producing the flag  
is to great.

### Society meets in Woodville

The Eldon and district  
branch of the Clan MacMillan  
Society of North America held  
their annual gathering in the  
Woodville Legion Hall recent-  
ly. They were approximately  
125 in attendance.

After a potluck supper and  
a singing a short business  
period was held. The adults  
then enjoyed progressive  
puzzle and visiting while the  
younger members were enter-  
tained by films and records.

The singing of Auld  
Syne brought the social even-  
ing to a close.

The president is Duncan H.  
Macdonald of Oshawa and the  
past president is John D. Mac-  
Millan, of Lorneville.

The national gathering for  
1964 is to be held in Clear-  
water, Florida U.S.A.

## Captain Wynona Rennick speaks at WCTU meeting

Captain Wynona Rennick of the Salvation Army as guest speaker at the May meeting of the WCTU held in Cambridge Street United Church Parlor outlined the group as she presented her message to a pleasing unassuming style.

She began her message by a few words of encouragement to the group and quoted the words of scripture "Be not weary in well-doing for the few words of cheer as the season you shall reap if you faint not." It requires daily a course of prevention in words on stand against wrong and to bring a WCTU to the said. Speaking from the 6th chapter of Galatians the Captain said "We Christians are counselled to love the weaker brother to bear one another's burdens. Quoting the old adage — An ounce of prevention is worth a pound of cure — the speaker urged that children be educated to the evil of alcoholism and in the home, in school and wherever possible so that the spirit of Christ might be in control rather than alcoholic spirits. Quoting scripture again as "Wine is a mocker and whoever is deceived thereby is not wise" and "whoever him who greets his neighbor drink". Incidents in her own experience as a Salvation Army Captain were listened to with keen interest as she told of a liquor vote being defeated by prayer and the aid of Rev. and Mrs. Ian MacIntyre honored on silver anniversary.

Rev. and Mrs. Ian MacIntyre celebrated their silver wedding anniversary at the home of friends in Lindsay.

Dorothy Ghent and Ian MacIntyre were married in Toronto on May 17, 1939. Rev. Edwin Taylor was the officiating clergyman. Following their marriage they continued their pastorate in Mount Pleasant, later moving to Toronto, and then to Norland Baptist Church where they served faithfully for 15 years. Just recently they have taken up residence in Fenelon Falls. They have one son Ronald at home.

Several ministerial friends and their wives gathered at the home of Rev. and Mrs. Bruce Eaton in the afternoon, and upon the arrival, the MacIntyres were taken completely by surprise. A delicious buffet supper was enjoyed, and at the conclusion of the table and group of 25 guests presented with a pair of table lamps by their friends.

Later on from 7 to 9 p.m. "Open House" was held for the happy couple when local friends called and presented gifts which expressed the love and esteem in which the MacIntyres are held.

Rev. Edwin Taylor and his wife were present, from St. Catharines, and Mr. Taylor led in a time of devotion, and the Hazy Quartette of Stratford sang a couple of gospel songs.

Rev. and Mrs. Gordon Searle of St. Catharines were present also friends from Penelon Falls, Stratford, Cannington, Newmarket, Little Britain and Norland.

Mr. and Mrs. MacIntyre appropriately expressed their appreciation, and all their friends

## PASSENGERS INJURED WHEN CAR LEAVES ROAD

Three of four passengers were injured when a car driven by Nicholas Diguisepe of 14 Woodward Avenue, Thornhill went out of control on a curve on County Road 8 two miles west of the junction on Highway 35, and rolled over, said Penelon Falls OPP. The accident occurred on Monday at 10:35 p.m. Although Mr. Diguisepe, and one of his passengers, Donald Hall of Willowdale, emerged unharmed, hospital authorities said Ross Pivnon of Agincourt was treated for head and neck injuries and Garth Mole of Wrentham received out-patient treatment for a fractured left wrist.

The passengers have been released from Lindsay Hospital. The accident was investigated by OPP Constable who said the group had been returning from a cottage when the accident occurred.

## PROJECTILE

Vancouver, British Columbia-UPP-Vancouver's famed nine o'clock gun boomed out with an unusual result this week.

A rock had been hidden in the barrel of the gun, but usually harmless cannon. When it was fired, the rock went blazing across the harbor and whistled through a sign at a service station bare anchored on the other shore.

## Youth takes swim suit and silver dollar

Terrance Gainer, 17, of Cambridge Street, entered a plea of guilty to breaking and entering charge in Lindsay Police Court on Tuesday.

Lindsay Police Constable William Bowles testified in court that the youth had gained entry to the residence of Ronald David, 44 Durham Street West, by smashing a window, giving him access to the lock on the inside of the door.

When he was later taken to the police office for questioning he admitted to taking a girl's swim suit, which he threw into the river from the Rainbow Bridge, and a silver dollar, which he spent.

The youth's father said the boy is now out for a training school and he remarked, "I don't want him to go to Oshawa; it might make him worse."

The accused was remanded to May 25 for sentencing. In that time he will receive a mental examination and a pre-sentence report will be submitted.

## Fire Rating

The Department of Lands and Forests, Lindsay, reports the forest fire danger rating for this district is low-medium. The fire reported to be under control in Minden Township yesterday has been extinguished.

1. Call on us whenever you like — we are delighted to see you. We only come here for chat and a smoke. 2. Don't trouble to wipe your feet when you arrive. We keep an office door open for you. 3. Please leave all doors open as you come in. We believe in having as much fresh air as possible. 4. Kindly read any correspondence you see lying about. You then become more acquainted with the business. 5. Oblige us by sitting in our office chair. It is for the use of friends. We can manage on the floor. 6. Bang the door as hard as you can when leaving. We then know you have gone, and it does the door good to be worked freely.

And after a church service on a recent Sunday morning, a gentleman of the congregation was chatting with one of the delightful old ladies about a sermon. Suddenly the gentleman said, "By the way, the Vicar is a bit of a philistine, isn't he?" "Oh no", the D.O. replied, "he is strictly Anglican church". Both were approved.

There will be no senior baseball from Cambray this year. After some eighteen consecutive years, at least in active competition in the old Tri-County League, and more recently the Victoria Independent League plus O.B.A. competition and church league and tournament play before that. The keen rivalry of the Cambray baseball team and their loyal supporters will be sadly missed.

Just going back some thirty years one remembers the keen competition between teams from Cambray, Cameron, Eden and Hartley all within a few miles of each other. Cambray's centenary and tournaments with the odd visit to Hailuon and Coboc.

Thru in Active baseball history in the village of Cambray dates far beyond the thirties, even before cars transported the teams. Enlarged farming operations and factory work with their night hours have taken the team felt obliged to withdraw from active competition this season.

## FROM N.C. CANADA TO N.C. USA

On August 6, 1963, band No. 196-2070 was placed on the log of a young male wood duck in the course of the Department of Lands and Forests' duck banding operation. Nokes Creek, 6 miles N.E. of Bogey Creek.

The female was then free to travel wherever in the forest or in her way would take him.

By late fall he had attained sufficient maturity to accompany his friends and relatives in their migration flight south which in his case took him 700 miles to a duck marsh in Johnson County, North Carolina, U.S.A.

The band was recovered and returned by Dr. B. Huston, of Goldboro, North Carolina.

**THE LITTLE WOMAN**  
In 1842 there were five schools in the county, two in Opa, and one in Mariposa and one in Eldon. The salary paid a teacher was on an average of \$1200 a year. The teachers, however, though extremely poorly paid, were very often men, and were called for the duties of a teacher. Very often it was a discharged soldier who was engaged to teach in the log school and of course his knowledge didn't go beyond the 3's. There were no normal schools in the province, no course of study was set for the guidance of the teacher. It is not wonder then the early settlers didn't get a better education but it was a start.

Made in the Midlands by Dunlop, Ltd., the giant wheels required 150 separate operations and 250 man-hours each to make. Sixty tyres will be available, all of which have been tested on a \$250,000 speed rig where both tyres and wheels were subjected to most rigorous trials.

The firm will also provide a team of technicians from Dunlop Rubber Australia and the operational management of the attempt is Andrew Murray, an Englishman who decided after the last attempt that he liked Australia and set up home there.

## If man in doorway was Oswald who fired the fatal shots?

Nek York (UPI) — "The New  
York Tribune used a  
full page advertisement today  
to promote the publication  
Sunday of "What is probably  
the most controversial photo-  
graph of the decade."

The advertisement said the  
photograph — taken a split  
second after President Ken-  
nedy was shot — shows a man  
standing in the doorway of the  
Texas School book depository  
from which the fatal shots were  
fired. The man bears an ex-  
traordinary resemblance to  
accused assassin Lee Harvey  
Oswald.

The Herald-Tribune adven-  
turer continued:

Sorry to hear Mrs. Chet  
Shier is suffering with a  
broken shoulder.

Welcome home to Mrs. Jack  
Allen, who has spent several  
weeks in Scotland with her  
sister, who was ill.

Congratulations to Holle  
Doyle and Linda Purvis who  
are the new president and sec-  
retary of Brock High Student  
Council.

Congratulations to Johnny  
Hogg who won the Jimmy  
Drummond Memorial Trophy,  
awarded annually for the most  
valuable player in the Oshawa  
Hockey League. He also won  
the Oshawa Civic Hockey Le-  
ague Trophy for High Scorer  
for the 1963-64 season. John  
is the son of Mr. and Mrs.  
Graydon Hogg.

Mrs. Edna Brabazon and Miss  
Winifred Allin attended the  
Presbyterian W.M.S. Centen-  
ial in Montreal.

"But if the man in the door-  
way was Oswald, who then  
fired the bullets which killed  
the President?"

"For weeks after President  
Kennedy's death, well-informed  
conversations in New York,  
Washington, and Dallas turned  
on the identity of the man in  
the picture."

The FBI said it was not  
Oswald.

"But one New Yorker still  
wondered, and his doubts have  
triggered a strange and fascinat-  
ing chain of events."

The advertisement also pro-  
moted to publish the story of  
this unidentified man "who  
made it (the photograph) a crusade."

## Who was Who of the Ghost World

For those who can't tell  
England's many ghosts with-  
out a scorecard, two Swinton  
Librarians have produced a  
book of "who was who" of  
the spook world.

Keith Harry and Mark Child  
said they dug up at least 170  
ghosts in their immediate vi-  
cinity of Wiltshire and Berks-  
hire and have listed them all  
in their book, "Local Haun-  
ting", a pamphlet selling for  
21 cents.

The listing stretches over  
600 years and includes some  
ghosts who have long since be-  
come extinct, so to speak.  
Others are still going strong.  
Harry and Child said, although  
haunting apparently isn't what  
it used to be.

NOW SUSPENDED

ford, England, can get his

The order covers private homes, a restaurant, service station, stores and the Royal Canadian Legion Hall all of which use water from the same well. There is no municipal water or sewage system in the village.

Dr. Jules Sobrian said many wells in the village were contaminated by intestinal bacteria, and he started vaccinating all school children for polio yesterday.

The young Vee Indian doctor who was called to Lindsay yesterday said a storm of criticism following his announcement, designed to protect the health of the people of the community. He said many wells in the village are contaminated with intestinal bacteria and other couldn't pay attention.

Let him recommend all he wants Mo, we can't afford it", Omeeme rev. George Shephens said.

The news said that a system would cost between \$300,000 and \$400,000 and the village couldn't pay attention.

## The Pearson Flag Revealed to Parliament with resolution naming O Canada Anthem

Ottawa—(UPI)—Prime Minister Lester Pearson today revealed his long ambition and colors had proposed new flag—the Red Bed on King George's the Maple Leaves on white with Fifth on Canada's request to blue borders on the staff and 1921-1928 Red Maple Leaves fly—with an accompanying resolution in a single item against the resolution in the House of Commons.

The flag resolution, which was approved by the early morning Commons notice paper, was provided for the Union Jack to be used as a symbol of Commonwealth membership and loyalty to the crown.

Gov. Save the Queen was proposed as the Royal Anthem.

The Red Anthem, which was proposed by government order in Canada since 1945, was approved by Parliament last under cloudy skies. It was not mentioned in the resolution.

The new design, which Pearson hopes will be the English proclaimed by His Majesty the Royal Anthem in Canada.

The following is the text of the resolution presented by the Prime Minister Lester Pearson proposed National Anthem.

That the government be authorized to take steps as may be necessary to establish the flag of the Commonwealth of Canada as a flag embodying the emblem proclaimed by His Majesty the Royal Anthem in Canada.

## TRIBUTE

The death of Indian Prime Minister Nehru has en-  
ormous implications both for India and the world.  
Nehru, as successor to Mohandas Gandhi was the force  
that held the diverse elements of the 400-million Indian  
nation together. The choice of a successor presents the  
Indian people with a great problem in the absence of  
any single personality able to command the authority  
Nehru.

Internationally, the passing of Jawaharlal Nehru  
could cause serious repercussions. He had steered a  
successful course between the east and west and held  
the confidence of both London and Washington.  
Although sometimes critical of British policy he  
remained a staunch defender and supporter of the  
Commonwealth. Indeed, after British, British prime  
minister when India became independent, said Nehru  
"he was singularly free from bitterness" against the  
British and did what he could to build friendship  
between the two nations.

Nehru was the close associate and protégé of the  
late Mahatma Gandhi. The two men rallied India to  
its independence.

His death is a loss to the world. He was a cham-  
pion of liberty.

A had runaway occurred last evening in South  
Ontonario between the Riverside Cemetery and  
as a result of a horse, driven by Mr. C. Hart, of Mount  
Horeb became frightened at an automobile. Mr. Hart  
was on his way north on the highway and the horse  
and when near the residence of Mr. P. Murphy the  
horse became frightened at an automobile which was on  
its way to Lindsay. The animal bolted and took to the  
chick upsetting the light and several of the occu-  
pants underneath. Fortunately however they  
escaped unharmed. The contents of the vehicle con-  
sisted of a bag of mail, a box of mail, a box of mail  
and miscellaneous groceries were strewn along the  
road, while Mr. Hart's watch was found in Mr. Murphy's  
field. The horse continued to gallop and pulling the  
it was captured by Mr. George Smith. The driver  
was pretty badly damaged.

MAY 27, 1939

Shag Harbor—The cottage and boat house between  
Shag Harbor and Lange Heav, which was occupied  
last year by Rancey Burke and family but which is now  
unoccupied were destroyed by fire between four and  
five o'clock this morning. The fire had gained so  
much headway when discovered that it was impossible  
for the neighbours that gathered to keep it from destroy-  
ing the two buildings. A valuable motor boat in the  
boat house was destroyed by the building and this  
represents a considerable loss to the owner. Just be-  
fore daylight Mrs. W. Franz, Lange Heav was awak-  
ened by flames from the cottage and boat house.  
Smoke and sparks were coming dangerously close to  
her house. She aroused her husband who called the  
neighboring farmers for assistance. Many residents  
of the boat house but the fire had too much headway  
by this time for their efforts to be of any avail. Mrs.  
Franz informed the Post that she could not understand  
how the fire could start. She stated that several cars  
had been parked along that vicinity during the night  
and it would be quite easy for a lighted cigarette stub  
to start the blaze.

"SALLY" SEES THE WORLD — The Canadian destroyer escort St. Laurent, fitted with an anti-submarine helicopter and covered with variable depth sonar, is taking the long way round the world in transferring from West to East coasts. The "Sally" leaves Gibraltar Sunday, May 24, for British home waters and more naval exercises. She'll cross her last coast to arrive at her new Halifax base in mid-July. The ship sailed in January from Esquimaut, B.C., with two other destroyer escorts for a large-scale Commonwealth naval exercise in the Bay of Bengal, then broke off to make her way independently to Halifax. She'll have called at 23 ports of a dozen nations by then. The St. Laurent served in Halifax from 1956 to 1959, transferred to the West Coast, and completed modernization there in 1963.

## PARKS FOR THE PEOPLE

Many people are blessed with forethought and often see predictions have come true. Many people are dreamers and often their dreams have come true. Who knows, perhaps this dream will come true.

Members of the Lindsay Parks Board, a few years ago, dreamed of improvements to MacDonnell Park and a beautiful dream has come true. The same people dreamed of a park in the South Ward and with the creation of the Zeller Park this has been fulfilled. Parks Board members of a few years ago dreamed of establishing a new green belt starting in the vicinity of the pump house, there skirting the west shore of the Scugog River to Kent Street East and continuing on the old stone mill a short distance from the new river bank park to the west of the mill. Much of the land would pass through the garden and vacant land, and would be used by the owners. In fact the Board received assurance from some property owners that the land could be purchased over free of charge. This dream may prove to be true and to the green belt it is a very desirable thing. The Park Board of a few years ago has a plan for a road which will be constructed. ## STOP!... killing yourself

**KEEP LEFT ELBOW IN WHEN DRIVING**

How do you sit behind the wheel of your car? So relaxed you almost feel as if you were lounging on a chair in your living room. Chances are that when you assume this comfortable position your left elbow is sticking way out the open window of your car.

Although there is little likelihood that your left elbow will be the target of another car, it happens too frequently to disregard the warning. When you drive, keep your left elbow inside.

In a recent issue of the Journal of the American Medical Association, Dr. Otto E. Aufmann, William N. Jones and William H. Harris of Boston write of such an accident. "Sidewipe injury to Left Elbow."

The case history, in part, "A 45-year-old lawyer sustained a 'sidewipe' injury of the left elbow. He had been driving his car with his left elbow protruding through the open window when his elbow was struck by a passing car."

He received a laceration, tendinitis, and staphylococcal infection, and was put under an anesthetic.

Operated upon by Dr. Peter A. Steinerhohn, MD, F.A.C.P., he had high blood pressure, diabetes, abnormally high cholesterol, if you smoke or drink intemperately, if you are always tense and work too hard. Have you or haven't you had an attack of coronary thrombosis? How old are you?

But let's suppose that arthritis in the spine complaint, and these factors I have mentioned do not exist in your case. You are vain and you like relief. Nitroglycerine is used universally in overcoming the angina pain but, what you are interested in is some treatment that will prevent the attacks.

Therefore, I think you may be interested (and so may your own doctor) in a recent paper in which Dr. N. P. De Pasquale, J. W. Burke, and G. E. Burch of New Orleans reported good results in the use of Griseofulvin. It appeared, for your doctor's benefit, in the May 1953, issue of JAMA. You may recall that this is the medicine which has been so effective in treating fungus infections of the skin. In their small series of 10 cases they found that Griseofulvin reduced the number of

attacks in many of these patients. One man of 63 who had been taking from 10 to 15 tablets daily of Griseofulvin, after a month on Griseofulvin, required only from 3 to 5 tablets a week to control chest pain. You will agree that this is an important medical contribution if it works as well in thousands of other patients.
